- Export shipments in

June 16 - 24, 1975

-- As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of June 26, 1975 (based on reports from exporters during the week ending June 15, unless otherwise noted):

Commitments of grains and soybean meal to West Germany declined sharply. These declines are believed to result from cancellations of basis (unfixed) price contracts that were made last year, apparently recognized at the time to be well in excess of the country's actual requirements, but made as protection against a possible short supply situation. Within the next few weeks additional cancellations are expected.

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) declined by 7,800 metric tons (MT). Increased commitments to Nigeria of 105,900 MT were more than offset by lowered commitments to Brazil and the European Community (EC) of 50,000 MT and 81,500 MT, respectively; commitments to West Germany alone fell by 77,900 MT.

For 1975/76 shipment, commitments to Iran and West Germany declined by 253,600 MT and 80,000 MT, respectively, while commitments to Brazil increased by 100,000 MT and to Japan by 54,600 MT. The decline in sales to Iran, at least in part, reflects cancellations attributable to congestion at unloading ports.

Feedgrains: The apparent export commitment for 1974/75 fell by 295,000 MT with a drop of 415,100 MT in the commitment to West Germany. Total corn commitments declined by 295,800 MT, because of a reduced commitment to the EC of 255,500 MT. Commitments to West Germany fell by 300,100 MT, but were partially offset by increased commitments to Belgium of 61,500 MT. Sorghum commitments **increased** by 98,200 MT, with a higher commitment to the EC of 49,400 and minor **increases** to other destinations.

Rice: The apparent export commitment for 1974/75 rose by 49,100 MT, almost totally accounted for by an increase in the commitment to Bangladesh of 48,100 MT.

Soybeans: The apparent export commitment increased by 38,000 MT, the first increase since late January. Exports have been declining in recent weeks and totaled only 58,300 MT. Changes in commitments included increases for the Netherlands, 29,000 MT; Japan, 21,400 MT; Taiwan, 20,000 MT; Canada, 15,200 MT; and the Dominican Republic, 2,800 MT. Commitments to West Germany decreased by 37,400 MT for 1974/75 while increasing by 8,200 MT for 1975/76.

Soybean Meal: The apparent export commitment declined by 172,300 MT as exports fell to 61,400 MT from 105,000 MT the previous week. Commitments to the EC were reduced by 184,800 MT. Commitments to unknown destinations increased by 10,500 MT. Smaller increases were noted for Canada and Czechoslovakia.

Soybean crush in May was reported at 53.6 million bushels, the lowest monthly rate since last September. Overall feed demand continues at a very low level compared with that of recent years because of reduced hog and poultry numbers.

Soybean Oil/Cottonseed Oil: The apparent export commitment for soybean oil increased by 1,000 MT while exports declined to 4,200 MT. Exports to Japan totaled 4,000 MT. Exports of cottonseed oil totaled 6,400 MT including 3,600 MT to Egypt, 2,500 MT to unknown destinations, and 300 MT to the United Kingdom.

Cotton: Exports for the week were 73,000 running bales (RB), bringing to 3.2 million bales total exports to date for the 1974/75 marketing year. With 7 weeks to go, about 70,000 RB per week are needed to reach the current USDA estimate of 3.7 million RB. Exports have averaged 82,000 RB per week during the past 10 weeks. The apparent export commitment increased by 6,000 RB. New business and cancellations remained light with most of the activity indicated actually technical adjustments to correct previous reporting errors. This includes the increase in outstanding sales to the People's Republic of China.

## Notice to Users of "U.S. Export Sales"

On June 3, 1975, Revision No. 2 of Export Sales Reporting Regulations was published in the Federal Register (40 FR 23839). This revision became effective with reports submitted for the week ending June 22, 1975. Following are the principal changes:

- . Mixed wheat is no longer reportable as a separate class but shall be reported as the class predominant in the blend.
- . Not to be reported is seed which has been (a) treated in a manner to limit its use only for planting purposes or (b) certificated by a recognized seed testing laboratory for variety, germination and purity.
- . Makes minor changes in definition of "export sale." Sales meeting the definition are reportable when entered into even though they are subject to later posting of a performance bond or letter of credit.
- . Recognizes agents of foreign buyers as reporting exporters if--and only if--they purchase commodities at interior U.S. points and arrange exportation for their principals.
- . Requires that when requested, additional contract detail be reported on purchases from foreign sellers.

Other minor changes were made to clarify several sections of the regulations. Copies of the revised Export Sales Reporting Regulations as well as supplemental exporter reporting instructions may be obtained by written request to: Export Sales Division, F. A. S., U. S. Department of Agriculture, Washington, D. C. 20250.

The revised regulation does not change the requirements for daily reporting of certain large transactions of wheat, feed grains, sorghums and soybean meal under Revision 2 of Notice to Exporters No. 1 dated March 6, 1975.
